Hi Folks,

Sylvia asked me to set up a meeting to discuss the Water Division's regulatory priorities in the coming months. I've attached a list of matters that ORC has created in order to get our conversation started. The list is a snap shot of what we are aware of and I'm sure you will have other matters to add. I hope this time works for you all. It's late in the day but the only time I could find for all of us.
